The purpose of the Washington County Wellness Initiative is to strengthen and transform the public health infrastructure through community-based action. The Washington County Wellness Initiative (WCWI) is the non-profit umbrella organization whose vision is for all Washington County residents to live in healthy communities with access to: physical and mental health services; progressive and caring community services and resources; and information and community involvement opportunities. There are currently eleven workgroups within WCWI working to attain the three overarching goals of the Washington County Wellness Initiative which are:

### Goal 1 Achieve Efficiencies

We will focus on identifying ways to achieve better system efficiencies and improve regional and/or local rural health care services.

### Goal 2 Expand Access To, Coordinate and Improve the Quality of Essential Health Care Services

We will focus on ways to build capacity and a network infrastructure that enables entities to coordinate care and increase to build capacity and a network infrastructure that enables entities to coordinate care and increase access to care for rural communities.

### Goal 3 Strengthen the Rural Health Care System as a Whole

We will focus on ways to enhance community and partner relationships to promote involvement and participation in network planning activities.

The success of the coalitions and the WCWI initiative is a result of local partners working together. Please join us in this effort to create healthy communities by becoming involved in and/or offering resources for any of the following areas:

Please check the boxes that are of most interest to you!

**HEALTH CARE ACCESS**

- I would like to be a member of this committee
- I am interested in doing research about health care access in other communities
